SUMMARY

Despite facing initial challenges, I have made significant progress in web development. I have developed proficiency in HTML, CSS, JavaScript, ReactJS, NextJS, Firebase, Tailwind CSS, and Mantine UI. With my knowledge and experience, I am now ready for my first role as a web developer, having successfully built web apps and gained confidence in my abilities.

EDUCATION

Bachelor of Science in Information Technology
Minor in N/A · Cavite State University · Luzon ,Cavite · 2021 · 1.91

COURSEWORK

Introduction In Reactjs
Scrimba · 2022 · Programming
Understanding ReactJS Concepts: Programming skills help in grasping the core concepts of ReactJS, such as components, props, state, and lifecycle methods. These concepts form the foundation of React development and require a solid understanding of programming principles. Writing React Components: ReactJS involves creating reusable components that encapsulate the UI logic. Programming skills allow you to write component code using JavaScript and JSX, a syntax extension that combines HTML-like syntax with JavaScript.

SKILLS

HTML,CSS,Javascript,ReactJs,NextJs,Firebase,Tailwind,MantineUI
